

Service Additives – Petrol System

Version: SA4/02

Valvoline™ Petrol System Cleaner

High performance direct cleaning additive for all petrol engines. Restores optimum engine performance by cleaning the entire fuel injection system. Instantly reduces deposits, lowers exhaust emission, solves issues with reduced performance and high fuel consumption.

Applications

Suitable for all petrol engines in passenger cars with or without catalytic exhaust gas converters.

Apply when:

- Fuel consumption is high
- Engine performance is poor
- Emission readings indicate issues

Operating instructions

Add contents of the metal bottle to the fuel tank.

Dosage:

One bottle (300 ml) on 80 liters of fuel or half of the bottle (150 ml) on 40 liters of fuel.

Features & Benefits

Highly effective cleaning of the fuel system

Concentrated cleaning agent that cleans the fuel system from the tank to the combustion chamber.

Fuel Economy

Removes harmful deposits and resins to help restoring engine performance and enhancing fuel economy.

Easy to use

Application through simply adding it to the petrol. No specialist tools or equipment required.

Helps to restore engine performance

A clean injection system ensures optimal engine performance.

Safeguards emission system performance

Cleans lambda sensor and helps to keep catalytic exhaust gas converter function.

PRODUCT INFORMATION

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

Typical properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

Petrol System Cleaner	
Appearance	Amber
Specific Gravity @ 20°C	0,814
Flash Point, °C	30
Lower explosion limit, vol%	0,6
Upper explosion limit, vol%	7,8

This information only applies to products manufactured in the following location(s):
Europe

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://msds.valvoline.com>

Protect the environment

Take used chemical to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. Keep container tightly closed and stored in a cool, dry and well ventilated place. Products should be stored inside and do not exposed to direct sunlight and high temperatures. Avoid freezing conditions.
