

**Colad** SNAPLID<sup>®</sup>  
SYSTEM

**LET'S  
MAKE IT  
SIMPLE!**

**You're serious  
about painting**

---

We get that.

# Don't waste a thing with **the Snap Lid System®**.

Make optimal use of your time. Our unique vented system gives you the ability to work neater and with a stable, consistent paint flow. Less paint is wasted, use less to create more!

You use one cup for mixing and painting. Unlike other systems that require various steps that slow down the paint process, Colad Snap Lid System® is quick to use. Snap the lid on the mixing cup and go. The math is easy: save material by using one less cup, every job.

Our unique vented system helps you to save paint.

Use your mixing cup as a paint cup to save on time and material.

Save time and money.

Simple.  
**Mix**  
**Snap**  
**Go!**

Saving you **time and money**

Optimized filter for every paint job.

## Let's stay in the flow with **the Snap Lid System®**

### Size does matter!

The perfect system for paint to flow through. With a unique valve and built-in strainer you'll have no more issues with inconsistent flow and sputtering output. The filter primarily prevents against pollution and particles out of the paint. Only stability!
