

PRODUCT INFORMATION

Automotive Chemicals – Technical Sprays - Cleaning

Version: **TS/024**

Valvoline™ DPF Cleaner

Tool to loosen and remove ash deposits in diesel-particle filter systems, without disassembly.

Applications

Diesel-particle filter systems

Product characteristics

Fast acting
Solvent free
Non-corrosive
Non-flammable

Directions for use:

Before use, carefully read the directions on the packaging.

Valvoline™ DPF Cleaner should be at room temperature before use. The processing temperature should be between 5 to 30°C. Shake before use.

Before use, allow the engine to cool down (maximum 50°).

Disassemble the temperature or pressure sensor from the filter.

Insert the special tube into the opening and empty the can in the following intervals:
Spray 3 to 5 times; allow to soak for 5 seconds.

Install the temperature or pressure sensor.
Start the engine and allow to run stationary for at least 15 minutes to evaporate most of the fluid.

Make a test drive of 30 minutes. This may cause the formation to steam.

PRODUCT INFORMATION

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

Typical properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

Valvoline™ DPF Cleaner	
Contents	400 ml
Basis	Solution of specific tensides
VOC-content	0 w/w
Propellant	Inert propellant
Relative density at 20°C	0,99 g/ml
Vapour pressure at 20°C	7 to 9 bar

This information only applies to products manufactured in the following location(s): Europe

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://sds.valvoline.com>

Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
