

Interflon Dry Clean Stainless Steel (aerosol)

Cleans, protects and restores the look of stainless steel

Product description

Cleans and restores luster to your abrasive and matt finish stainless steel/INOX surfaces. Cleans and protects in one step. Leaves behind a protective coating which resists bacteria, finger marking and smudges. A unique cleaner with protection formulation.

Application

Use on abrasive and matt finish stainless steel surfaces, including food production machinery and surfaces in institutional kitchens, restaurants, hotels and cafés. For yachts, airports, offices, shop and department store interior elements, elevators, staircases, reception areas, exhibitions/trade fairs and decorative/ architectural elements.

Metal cleaner for nonfood contact surfaces (NSF-A7) in and around food processing areas. Listed by the NSF with registration number [138020](#).

Advantages

- Quickly cleans and restores luster to stainless steel surfaces in one step
- Protects against cooking stains, food residue, grease and deposits from stainless steel surfaces
- Reduces oxidation and corrosion
- Resists bacteria, streaking and fingerprinting
- No water required
- Contains no acids, alkalis or abrasives
- Aerosol can be used in every position

Instructions for use

Shake can well before use. Surfaces should be cleaned first with a solvent or alkaline cleaning agent before treatment. Spray onto a clean and dry cloth and spread on the surface. Buff in the direction of the grain to achieve maximum result.
