

SOLAR FLARE

ODOUR COUNTERACTANT and AIR FRESHENER

TECHNICAL DATA

GENERAL DESCRIPTION

SOLAR FLARE is a total and complete spray that eliminates tough odours in the air and combats odours trapped in all kinds of carpeting, upholstery, draperies, fabric and clothing. Natural odour counteractant chemically neutralizes foul odours from their source. Removes unpleasant bathroom odours, smoking odours, kitchen odours, pet odours and other foul odours.

AREAS OF APPLICATION

SOLAR FLARE can be used everywhere for room freshening, hotels and motels, bathrooms, restaurants, public buildings, school locker rooms, nursing homes, hospitals, carpeting, draperies, fabric, laundry hampers, garbage pails, smoking areas, sport shoes, closets, storage chests, gym lockers, offices or anywhere odour is a problem.

SPECIAL FEATURES

Easy To Use - quick and easy to use - use as is - no mixing, diluting or pouring .

Highly Effective - powerful micro-spray quickly penetrates areas where malodors reside. Residual effect continues countering odours long after use.

Non-Staining - colourless and leaves no stain.

Economical - one product counters wide range of malodors eliminating need for multiple products. Concentration and forceful release pattern reduces need for excessive application.

USE DIRECTIONS

For use as a space odour counteractant aim toward centre of area and in a waving motion press button and spray short bursts into the air. For carpets and other fabric type applications spray lightly and evenly over the entire surface being deodorized from a distance of 30-40 cm (12-15 in). Always pre-test on fabrics, clothing and carpeting.

NOTE: Avoid spraying polished wood furniture. Avoid directing spray toward children, pets or other occupants. Not for use over food preparation, storage or eating surfaces and utensils.

PHYSICAL PROPERTIES - AEROSOL

SOLAR FLARE consists of concentrated natural odour counteractants in solution with solvent carriers

Type	Odour Counteractant Spray
Appearance (conc.)	Clear Colourless Liquid
Odour	Floral
Viscosity (concentrate)	Water Thin
Flammability	Flammable
pH (concentrate)	n/a
Solubility in Water	Negligible
Toxicity (concentrate) ..	Low; Eye and Skin Irritant Harmful If Ingested

**FOR USE IN
INDUSTRIAL, INSTITUTIONAL,
MARINE AND COMMERCIAL
ENVIRONMENTS**

PACKAGING

Case (12x369g Cans)

DM1201
